

Virtual Visits

Solutions in the U.S.

When you don't feel well, getting to the doctor's office can be a challenge. With Virtual Visits, talk to a doctor whenever, wherever from a mobile device* or computer without an appointment or the hassle of leaving home.

Doctors can diagnose and treat a wide range of non-emergency medical conditions such as colds and rashes 24 hours a day, 7 days a week.

From a desktop or mobile device:

- See a doctor without an appointment
- Access care around the clock
- Receive a prescription when appropriate**
- Get care from anywhere

Features

Accessible and Convenient*

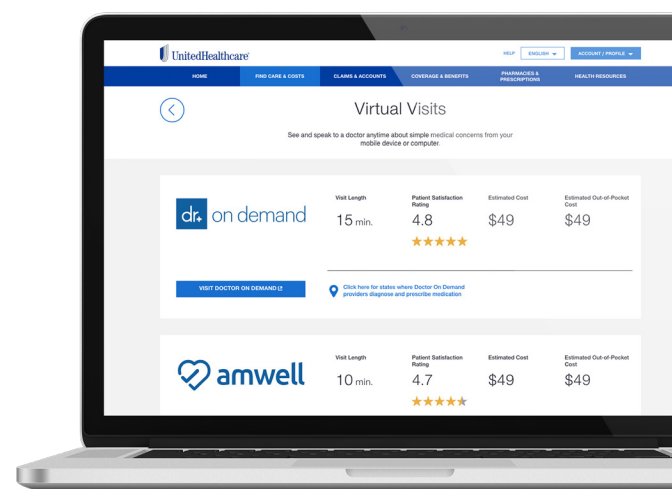

No more waiting rooms. No need to book an appointment. Talk to a doctor by video for \$50 or less per visit from home, office or on the move, without having to travel to a clinic.

24/7 Care

Doctors are able to diagnose a wide range of non-emergency medical conditions and prescribe medications.

Prescription Services**

If needed, a prescription can be sent to a local pharmacy.

*Cellular messaging and data rates may apply.

**Certain prescriptions may not be available, and other restrictions may apply.

How does it work?

Get started using Virtual Visits.

- 1 Choose a provider: FVAVU Amwell or Doctor on Demand
- 2 Register online
 - To register with Teladoc, visit myuhc.com. Search for “virtual visits” and select "Teladoc". With single sign on functionality, there is no need to complete a registration form. Member information is automatically sent to Teladoc.
 - To register with [Amwell](#) or [Doctor on Demand](#), visit either provider’s site. Complete the required fields using a UnitedHealthcare Global ID card.
- 3 Download the provider app from the app store and begin using the services.

About Teladoc

Teladoc Health offers comprehensive virtual care solution capable of serving organizations and people anywhere.

Their services span the spectrum of health care needs, from simple to complex. They seamlessly connect general medical, mental health, and complex care to deliver convenience, outcomes, and value.

About Amwell

Amwell is an affordable, convenient way to resolve routine medical conditions. Their unique, secure technology makes it possible to see a doctor, face to face, on a mobile device, desktop or telephone, without having to leave home.

With video, providers can look, listen and engage to help diagnose health concerns and provide an effective treatment plan.

About Doctor on Demand

Doctor on Demand's mission is to improve the world’s health through compassionate care and innovation.

Their vision is to put the patient first, developing long-term patient-doctor relationships, and providing families with peace of mind through fully-integrated mind and body care.
